---

## TECHNICAL SKILLS

**Stack** | React, Node, RESTful APIs, MySQL

**Developer Tools** | Git / GitHub, npm, VScode

## RECENT WEB APPLICATION PROJECTS

**What2Wear App** | [Live Demo](#) | [GitHub Link](#)

*A weather app that allows users determine an outfit choice based on their location and current weather conditions. React, Node, Express, REST APIs*

**Subscription App** | [Live Demo](#) | [GitHub Link](#)

*A service subscription app with email validation using an API and live payment integration. React, Node, Express, REST APIs, Tailwind CSS*

## RECENT WORK EXPERIENCE

**Front-End Developer (volunteering) @ Chingu**

**Oct. 2022 – Present**

- Built and maintained multiple web component and applications using React.
- Built and integrated custom REST APIs for each data fetching and rendering to clients.
- Assisted tier 1 and tier 2 developer teams in tech and non-tech topics during the 6-weeks of their Chingu.io internship.

**Front-End Developer @ FeDevs**

**Jan 2020 – May 2022**

- Developed and maintained WordPress and custom CMS Websites for multiple clients.
- Implemented user-authentication systems to prevent unauthorized access to paid resources, resulting in cost-savings and enhanced security systems for clients.
- Increased client conversion by 30% by redesigning sales page and improving accessibility for conversion forms.

---

## TECH-COMMUNITY ENGAGEMENT

**Dev Advocate**, WWT Cohort - helping developers grow their skills and become job ready.

**Team Mentor**, Chingu.io - helping developers turn their learnings into useful experience needed to land a Software Developer job.

## EDUCATION

**University of Ilorin** (Ilorin NG)  
BSc. Industrial Chemistry.
