TECHNICAL SKILLS

Stack | React, NodeJs, Express, REST APIs, MySQL   **Developer Tools** | Git, GitHub, NPM

RECENT WEB APPLICATION PROJECTS

What2Wear App | Beta Testing | GitHub Link
A weather app that allows users determine an outfit choice based on the user's location and current weather conditions. **React, Node, Express, REST APIs**

Subscription App | Live Demo | GitHub Link
A multi-step service subscription app with email validation using an API and live payment integration. **React, Node, Express, REST APIs, Tailwind CSS**

RECENT WORK EXPERIENCE

Front-End Developer (volunteering) @ Chingu   *Oct. 2022 – Present*
- Developed and deployed scalable and reusable React components and hooks, which resulted in a 50% reduction in development time and a 25% boost in team efficiency.
- Engineered and integrated custom REST APIs that allowed seamless data exchange between multiple servers, resulting in a 40% reduction in data processing time.
- Managed and coordinated 2 developer teams and provided guidance on coding projects and other non-tech topics during the 6-weeks of the Chingu.io internship.

Front-End Developer @ FeDevs   *Jan 2020 – May 2022*
- Improved SEO strategy for 20+ custom CMS sites; optimized meta tags and keyword density, resulting in a 40% increase in organic traffic.
- Implemented multi-factor authentication systems to prevent unauthorized access to paid resources, resulting in 60% cost-savings and enhanced security systems for clients.
- Increased client conversion by 30% by redesigning sales page and improving accessibility for conversion forms.

TECH-COMMUNITY ENGAGEMENT

Dev Advocate, WWT Cohort - helping new developers grow and become ready for the job market.

Team Mentor, Chingu.io - helping developers gain useful experience needed to land a Software Developer job.

EDUCATION

University of Ilorin (Ilorin, NG)
BSc. Industrial Chemistry.
